raise one exponent to another exponent

solving linear equations

write the answer in interval notation

write the answer from 3 to infinity in interval notation

begin by dividing both sides by negative 3

graph linear equations in slope intercept form slope intercept  
plot the y-intercept  
use the intercept method  
begin by finding the x intercept  
plot the x and y intercepts  
start with the absolute value of x  
reflect over the x-axis  
shift three units to the right  
change the parent function into a quadratic function  
solve quadratic equations  
set each factor equal to 0  
get the answer using the quadratic equation  
get these two answers using the quadratic equation  
use the quadratic equation  
set each factor equal to zero  
you can use the quadratic formula  
solving systems of equations  
use the elimination method  
replace x with 1 in the first equation  
find the value of x  
find the value of f of g  
find the points of an inverse function  
start with f of g
