Vat Liability and the Implications of Commercial Property Transactions

The option to tax is a major VAT planning tool but you have got to get the detail right to take full advantage and getting it wrong can be very costly. There are a mass of rules and regulations concerning the option to tax and this report provides valuable expert guidance to all of them. Other key areas of difficulty which are covered include transfers of going concerns and capital goods scheme regulations both of which contain traps for the unwary. All traps are avoidable. This report highlights what they are and explains how to avoid them.

Tax Planning for Businesses and Their Owners

2006/07 has been a significant year for UK tax legislation, seeing in the introduction of a new personal pensions regime, the abolition of the nil starting rate for Corporation Tax, and the alignment of Inheritance Tax for the various types of trusts. This book is aimed at owners and managers of businesses, and offers advice on the tax implications of their business decisions. It guides owners towards both business choices and personal transactions that will help to secure opportunities for tax reduction. In the midst of wide-reaching change in tax regulations, the author, a financial consultant and lecturer, uses his experience and expertise to provide a timely advisory text, which concentrates specifically on relieving the tax burden

Corporate Governance

This report is a clear, accessible and jargon-free analysis of the practical application of Corporate Governance. With short case studies to illustrate UK legal requirements, the author guides the reader through all aspects of the Corporate Governance program, concentrating specifically on its use by organizations who are not required to adopt it, such as listed PLCs.

Employment Law Aspects of Mergers and Acquisitions

The employment law and personnel management issues that arise when businesses are bought and sold are of great concern not only to the employees but also to the management of both purchaser and vendor. This Report will help managers to understand the key practical and legal issues, achieve consensus and involvement at all levels, understand and implement TUPE regulations and identify the documentation that needs to be drafted or reviewed within the context of a merger, acquisition or disposal.

The VAT and Property Guide

This is the second edition to the successful practical guide on the VAT treatment of commercial and non-commercial property transactions and the impact of VAT on the structure of property dealing and investment.

[Subject: Value Added Tax, Property Law]

VAT and Property

This text offers analysis of the application of VAT to commercial property transactions, detailed guidance on the VAT legislation and comprehensive tax-planning advice on how to structure property transactions. This edition has been brought up to date with the introduction of the Finance Act 1997. Areas new to this edition include: effects of the Finance Act 1997 provisions which disapply the election to waive VAT exemption on commercial sales and leases; VAT Land Groups - VAT group anti-avoidance provisions; the new capital goods provisions introduced by the 1997 Regulations; the new customs approach to sales of going concern; and conversions to residential (Finance Act 1997) changes.

VAT Planning for Property Transactions

The Commercial Manager is the complete handbook for practitioners across all sectors of commerce and industry and covers every aspect of this multi-faceted role. Commercial management covers a large range of different and crucial functions including contract negotiation, procurement, financial management, risk management, project management--and yet until now the subject has rarely if ever been treated as a single discipline. This book fills that important gap. Written by authors with wide practical experience, The Commercial Manager offers expert, accessible and practical guidance on all the British legal, commercial and planning aspects of this crucial management role. It will serve as an indispensable handbook for managers in both the private and public sectors. Part One covers commercial awareness and relationships, the contract and negotiation techniques. Part Two explores techniques of risk management and Part Three provides expert advice on planning and project management.

Fair Society, Healthy Lives

Produced by an independent group of policy makers, researchers & cultural managers, this book is a contribution to the debate initiated by the World Commission on Culture & Development (UN/Unesco) on the role of culture within society. It addresses various questions such as bridging the global cultural gap, mobilising human resources through culture & living & working in the communications society. Includes case studies, statistics & indicators.

The Internet and E-commerce

This Report addresses an issue which is fundamentally a matter of social justice; namely that although the last 20 years have brought a marked increase in prosperity and substantial reductions in mortality to the people of this country as a whole, the gap in health between those at the top and bottom of the social scale has widened. Yet there is convincing evidence that, provided an appropriate agenda of policies can be defined and given priority, many of these inequalities are remediable. The same is true for those that exist

between the various ethnic groups and between the sexes.

The Commercial Manager

In this volume, the Study Group and the Acquis Group present the first academic Draft of a Common Frame of Reference (DCFR). The Draft is based in part on a revised version of the Principles of European Contract Law (PECL) and contains Principles, Definitions and Model Rules of European Private Law in an interim outline edition. It covers the books on contracts and other juridical acts, obligations and corresponding rights, certain specific contracts, and non-contractual obligations. One purpose of the text is to provide material for a possible "political" Common Frame of Reference (CFR) which was called for by the European Commission's Action Plan on a More Coherent European Contract Law of January 2003.

In from the Margins

Poverty in Britain is at post-war highs and - even with economic growth - is set to increase yet further. Food bank queues are growing, levels of severe deprivation have been rising, and increasing numbers of children are left with their most basic needs unmet. Based on exclusive access to the largest ever survey of poverty in the UK, and its predecessor surveys in the 1980s and 1990s, Stewart Lansley and Joanna Mack track changes in deprivation and paint a devastating picture of the reality of poverty today and its causes. Shattering the myth that poverty is the fault of the poor and a generous benefit system, they show that the blame lies with the massive social and economic upheaval that has shifted power from the workforce to corporations and swelled the ranks of the working poor, a group increasingly at the mercy of low-pay, zero-hour contracts and downward social mobility. The high levels of poverty in the UK are not ordained but can be traced directly to the political choices taken by successive governments. Lansley and Mack outline an alternative economic and social strategy that is both perfectly feasible and urgently necessary if we are to reverse the course of the last three decades.

Independent Inquiry Into Inequalities in Health

Engagement is a frequently used and fashionable term. Some companies have 'engagement models' and are attempting to measure levels of engagement, perhaps to input to the balanced scorecard, or for incorporation into the human capital report. This book deals with employee engagement.

Principles, Definitions and Model Rules of European Private Law

First published in 1997, this series, published in association with the Social Policy Research Unity at the University of York, is designed to inform public debate about these policy areas and to make the details of important policy-related research more widely available.

Challenging The Rulers: A Leadership Model for Good Governance brings to the fore the issue of leadership in developing countries like Kenya. Citing specific examples, it singles out bad leadership as the cause of stagnation and underdevelopment in Africa. This book advocates for a serious discourse on leadership as the most critical factor in a national quest for good governance and prosperity. Unlike other writers who bemoan the state of affairs in Africa without offering alternatives, the authors propose a leadership model that can ensure good governance. This is based on the premise that good leadership means good governance hence reasonable economic growth and development. Values and principles of good leadership are outlined. In 2010, Kenya took its pride of place among nations by enacting a new progressive constitution which among other things provides for a devolved government. However, the authors argue that good laws, structures, systems and policies simply provide the infrastructure for good governance. To move Kenya forward, good men and women of vision, who are committed to servant leadership, must rise up to activate these laws to bring about good governance as a means of improving people's quality of life. In a nutshell, this book advocates for reforms in leadership. Challenging The Rulers is a challenge to all leaders - present and aspiring - to adopt this leadership model. To ordinary citizens, it is a call to take necessary action to elect good leaders.

The Drivers of Employee Engagement

This guideline provides updated global, evidence-informed recommendations on the intake of free sugars to reduce the risk of NCDs in adults and children, with a particular focus on the prevention and control of unhealthy weight gain and dental caries. The recommendations in this guideline can be used by policy-makers and programme managers to assess current intake levels of free sugars in their countries relative to a benchmark. They can also be used to develop measures to decrease intake of free sugars, where necessary, through a range of public health interventions. Examples of such interventions and measures that are already being implemented by countries include food and nutrition labelling, consumer education, regulation of marketing of food and non-alcoholic beverages that are high in free sugars, and fiscal policies targeting foods and beverages that are high in free sugars. This guideline should be used in conjunction with other nutrient guidelines and dietary goals, in particular those related to fats and fatty acids (including saturated fatty acids and trans-fatty acids), to guide development of effective public health nutrition policies and programmes to promote a healthy diet.

Breadline Britain in the 1990s

This volume enables managers to review, extend and sharpen their project management skills, promoting individual development, personal and organizational effectiveness. Practical features include key questions, action checklists, activities and guides to best practice.

Europe in Figures

Recent years have seen a rapid increase in the use of enzymes as food processing tools, as an understanding of their means of control has improved. Since publication of the first edition of this book many new products have been commercially produced and the corresponding number of published papers has swollen. This second edition has been fully revised and updated to cover changes in the last five years. It continues to provide food technologists, chemists, biochemists and microbiologists with an authoritative, practical and detailed review of the subject.

Secrets of Electronic Commerce

Since its publication in the early 90s, Brenda Boardman's Fuel Poverty has been the reference text for those wishing to learn about this complex subject. In this, its successor, she turns a critical eye to the new millennium and finds that the situation, while now more widely recognised, is far from having improved. The book begins by discussing the political awakening to the issue and exploring just who constitutes the fuel poor. It examines the factors that contribute to fuel poverty - low incomes, high fuel prices and poor quality housing - and looks at and evaluates the policies that have been employed to help reduce the problem. The latter part presents a detailed set of proposals based around long-term improvements in the housing stock that must be employed if we are to avoid a dire situation continuing to get worse. Based on detailed analysis of the situation in the UK, the growth of fuel poverty (sometimes called energy poverty) in other countries and the new focus in European policy makes the book timely and provides important lessons for those who now have to produce policies to tackle the issues.

Challenging the Rulers

This handbook provides a comprehensive, down-to-earth guide to every aspect of managing credit. It guides sellers carefully through the Consumer Credit Act and related operating methods.

Arlidge, Eady & Smith on Contempt

Social Marketing involves the application of marketing techniques (usually associated with promoting consumption) to social ends. This new addition will arm the socially conscious marketing student with: Case studies from across the globe, accessible exercises, engaging stories and online support with an expanded and enhanced companion website which will all enable you to think critically about the individual and systemic drivers of both harm and progress, and provide you with the tools to act. This popular introductory textbook has been thoroughly updated to enable students to challenge the bad, champion the good and become rebels with a cause. Now including more on systems thinking, evaluation and apps, Hastings and Domegan also introduce the influential new 3Cs model (Containment, Counter-Marketing, Critical Capacity Building). This book is essential reading for all social marketing, marketing ethics, and marketing and society courses. Cover Picture: 'La Sardane de la Paix' by Pablo Picasso. The sardane is a traditional circle dance from Catalonia which has come to symbolise the struggle of ordinary people against oppression, from Napoleon through Hitler and Franco and into the modern era. The individual dancer holds his or her hands in the air in a gesture

of autonomy and empowerment, and is able to maintain what would quickly become a tiring stance thanks to the supporting hands of her fellow-dancers. It illustrates the key social marketing lesson that addressing complex social problems, such as climate change or inequalities – as with dictators - requires a combination of individual agency and collective action. It also shows that critical analysis, the questioning and challenging of the current system, lies at the heart of progressive social change, and that good social marketers should be rebels with a cause.
