## Emergency Department Compliance Manual

Emergency Department Compliance Manual, 2013 Edition provides everything you need to stay in compliance with complex emergency department regulations. The list of questions helps you quickly locate specific guidance on difficult legal areas such as: Complying with COBRA Dealing with psychiatric patients Negotiating consent requirements Obtaining reimbursement for ED services Avoiding employment law problems Emergency Department Compliance Manual also features first-hand advice from staff members at hospitals that have recently navigated a Joint Commission survey and includes frank and detailed information. Organized by topic, it allows you to readily compare the experiences of different hospitals. Because of the Joint Commission's hospital-wide, function-based approach to evaluating compliance, it's been difficult to know specifically what's expected of you in the ED... Emergency Department Compliance Manual includes a concise grid outlining the most recent Joint Commission standards which will help you learn what responsibilities you have for demonstrating compliance. Plus, Emergency Department Compliance Manual includes sample documentation that hospitals across the country have used to show compliance with legal requirements and Joint Commission standards: Age-related competencies Patient assessment policies and procedures Consent forms Advance directives Policies and protocols Roles and responsibilities of ED staff Quality improvement tools Conscious sedation policies and procedures Triage, referral, and discharge policies and procedures And much more! Emergency Department Compliance Manual has been updated to include new and updated legal and regulatory information affecting your ED, including: Updated questions and answers, covering such topics as: Physician Payment Sunshine Act requirements What a HIPAA audit involves Joint Commission requirements for patient-centered communication Joint Commission requirements for the use of scribes Hospitals' response to uncompensated emergency department care Factors, including drug shortages, that affect patient safety Joint Commission requirements to manage patient flow The Supreme Court decision's impact on health care reform Fraud and abuse updates OIG reassignment alert Stage 2 meaningful use requirements Affordable Care Act summary of health plan benefits and coverage (SBC) requirements Hospital value-based purchasing update Medicare Shared Savings Program requirements New Joint Commission survey questions and answers Updated sections on hospital accreditation standards New and updated forms, policies, and other reference materials to facilitate compliance, including: Memorandum of Understanding Regarding Reciprocal Lateral Transfer Sample Lateral Transfer into Hospital Transfer Process Commonly Abused Prescription Drugs Medication Use Agreement ED Director's Weekly Wrap-Up Report to Staff Communication Template: Staff Meeting Safety Triggers ED Registered Nurse Clinical Ladder Program ED Registered Nurse Clinical Ladder Program: Expectations/Criteria for Each Dimension ED Nursing Education File Checklist ED New Hire Plan Extra Shift Bonus Policy Guidelines for Extra Shift Bonus Pay ED Overtime Justification ED Communication Checklist ED Downtime Track

## **Compliance for Coding, Billing & Reimbursement, 2nd Edition**

While the vast majority of providers never intend to commit fraud or file false claims, complex procedures, changing regulations, and evolving technology make it nearly impossible to avoid billing errors. For example, if you play by HIPAA's rules, a physician is a provider; however, Medicare requires that the same

physician must be referred to as a supplier. Even more troubling is the need to alter claims to meet specific requirements that may conflict with national standards. Far from being a benign issue, differing guidelines can lead to false claims with financial and even criminal implications. *Compliance for Coding, Billing & Reimbursement, Second Edition: A Systematic Approach to Developing a Comprehensive Program* provides an organized way to deal with the complex coding, billing, and reimbursement (CBR) processes that seem to force providers to choose between being paid and being compliant. Fully revised to account for recent changes and evolving terminology, this unique and accessible resource covers statutorily based programs and contract-based relationships, as well as ways to efficiently handle those situations that do not involve formal relationships. Based on 25 years of direct client consultation and drawing on teaching techniques developed in highly successful workshops, Duane Abbey offers a logical approach to CBR compliance. Designed to facilitate efficient reimbursements that don't run afoul of laws and regulations, this resource – Addresses the seven key elements promulgated by the OIG for any compliance program Discusses numerous types of compliance issues for all type of healthcare providers Offers access to online resources that provide continually updated information Cuts through the morass of terminology and acronyms with a comprehensive glossary Includes a CD-ROM packed with regulations and information In addition to offering salient information illustrated by case studies, Dr. Abbey provides healthcare providers and administrators, as well as consultants and attorneys, with the mindset and attitude required to meet this very real challenge with savvy, humor, and perseverance.
